The first who can do everything – and even faster

High-performance compressor TLK 35

We have added an e-Line to our range of manual compressors. In the e-Line, the manual hand pump on all Birchmeier sprayers, foamers and powder dusters are replaced by the powerful TLK 35 compressor. At the touch of a button, the entire contents of the tank can be dispensed without manual repumping. The pressure can be adjusted continuously between 0.5 and 3.5 bar and the CAS battery exchange system allows access to different battery capacities from 2.0 to 10.0 Ah.

Spraying

With a 2.0 Ah battery pack, for example, a spray time of up to **200 minutes** can be achieved at a working pressure of **2.0 bar**, using approximately **70 litres** of liquid

Garden

Extremely comfortable to use and ideal for plant strengthening and plant protection. The device, with its large, stable base and integrated spray tube holder, ensures a secure stand.

e-Profi 7

Construction

The powerful battery compressor ensures a consistently high delivery rate, while the large, stable base with integrated spray pipe holder ensures secure footing and practical handling – even under demanding conditions.

e-Spray 7 P

Cleaning / Disinfection

Convenient and efficient cleaning thanks to the sprayer specially developed for use with acids or alkalis. The sprayer has a large, stable standard base with an integrated spray pipe holder for secure footing.

e-Clean 7 P

e-Clean 7 E

Foaming

With a 4.0 Ah battery pack, for example, at a working pressure of **3.5 bar**, an area of **300–600 m²** can be foamed with one battery charge.

Cleaning / Hygiene

The entire tank contents can be completely foamed without interruption, enabling large-area and time-saving cleaning. Different sprayers are available for different areas of application – optimised for handling both acids and alkalis. The sprayer has a large, stable base with an integrated foam holder, ensuring that it stands securely.

e-Foam 7 P

e-Foam 7 E

Dusting

With a 4.0 Ah battery pack, for example, dusting can be carried out for around **30 minutes** at a working pressure of **2.0 bar**, applying around **30 kg of powder** (10 fillings).

Pest control

The powerful compressor enables continuous and even powder application without the need for re-pumping during use.

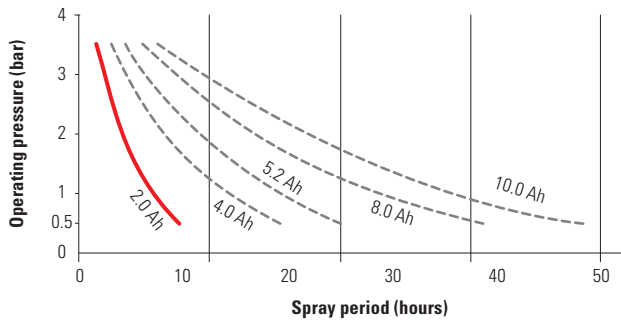

e-DR 5

TLK 35 It is universally suitable for pressure storage devices with a high-performance compressor for spraying, foaming, and dusting, for professional gardening and industrial applications.

Performance data

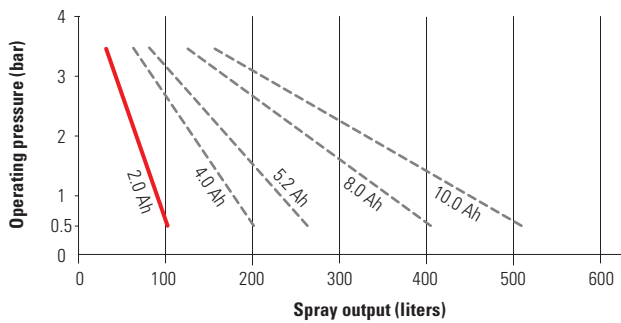

Spraying	up to 200 min / 70 l	at 2.0 bar	18 V Li-Power / 2.0 Ah
Foaming	up to 300 – 600 m ²	at 3.5 bar	18 V Li-Power / 4.0 Ah
Dusting	up to 10 x 3 kg	at 2.0 bar	18 V Li-Power / 4.0 Ah

Spray period* TLK 35 (Spraying / e-Profi 7)

* pro battery pack charging

Spray output* TLK 35 (Spraying / e-Profi 7)

Suitable Birchmeier devices for TLK 35

Hobby Star 5, Astro 5, Clean-Matic 5 P, Foam-Matic 5 P, Garden Star 3 / 5, Rondo Matic 5, Clean-Matic 5 E, Foam-Matic 5 E, Profi Star 3 / 5, Rondo Matic 5 P, Spray-Matic 5 P / 7 P, Organic Star 5, Rondo Matic 5 E
