Termite & Pest Control

Chris Buckaloo

This machine by far blows any other fogger/sprayer away. Nothing beats its versatility or Birchmeier quality. We have already replaced one of our gas backpack blowers with the AS 1200 and will not be looking back. Birchmeier products outperform and outlast any of the other backpacks or blower systems I've used in the last 15 years.

Application details	
Device:	AS 1200 with REC 15
Nozzle:	Special nozzle MV 850
Airspeed level:	3 – 4
Pressure REC 15:	2 bar / 29 psi
Spray liquid:	Depending on the application
Area:	100 – 1000 m ² / 1076 – 10764 sq ft
Spray liquid consumption:	approx. 25% – 30% less

Result / conclusion of Chris Buckaloo:

The AS 1200 eliminates the need for two whole systems on my vehicle and is very easy to convert from one to the other. There is no gas engine so no carburetor cleaning or mechanical maintenance to the motor. At its lowest setting, I can use it for a general pest spray with a wide cone to cover lower areas like around the perimeter of a building. At the highest setting the turbine blows a jet stream and can get hard to reach places, like 20–30-foot (6–9 m) ceilings in warehouses for spider treatments.
