Eva-Maria Weber

Due to the turbulence, the contact liquid can be distributed very well.
Expensive to buy, but worth every euro!

Application details

Device:	AS 1200 with REC 15
Nozzle:	AITXA 8002 VK (yellow)
Airspeed level:	3
Pressure REC 15:	6 bar (optimal penetration)
Spray liquid:	Fighting powdery mildew with contact agent (Multikraft)
Area:	13 a
Spray liquid consumption:	65 liters

Result / Eva-Maria Weber :

- Due to the turbulence, the contact liquid can be used very well.
- The spray success is clearly visible.
- I wouldn't give the AS 1200 away.
